◆ FIELD OPERATIONS GUIDE ◆

Proper Home Prep

Tech Quick-Reference Card

Your job-by-job field guide — keep this with you on every turnover.
Read it. Know it. Live it.

■ CONFIDENTIAL — INTERNAL USE ONLY ■

STEP 1 — ARRIVE & ASSESS

" You represent Proper Home Prep the moment you pull up. Be on time. Be in uniform. Be ready. "

Complete every item below before beginning work — in order:

- ☐ Park in designated spot — check property SOP for parking notes
- ☐ Put on uniform — navy Proper Home Prep shirt/polo, clean attire, closed-toe shoes
- ☐ Open dashboard app — pull up this property's SOP before entering
- ☐ Confirm check-in deadline — know your window before you start
- ☐ Clock in on dashboard — mark job as STARTED
- ☐ Take all BEFORE photos immediately upon entering — before touching anything:
  - — Front of property / exterior
  - — Each bedroom (before state)
  - — Each bathroom (before state)
  - — Kitchen (before state)
  - — Living room (before state)
- ☐ Upload before photos to dashboard NOW — not at end of job
- ☐ Do a 60-second walk-through — note any visible damage or concerns before cleaning
- ☐ Flag any pre-existing damage immediately via dashboard — photo + descriptive note
- ☐ Start laundry — strip beds and start first load before anything else

★ **Before photos protect you. Upload them the moment you walk in — before a single thing is touched. No exceptions.**

STEP 2 — WORK THE SOP IN ORDER

Always follow the property-specific SOP in your dashboard. When in doubt, use this universal sequence:

▶ PHASE 1 — LAUNCH (First 10 Minutes)

1. Strip all beds → start laundry immediately
2. Empty all trash cans — every room, every bin
3. Collect guest left-behinds — bag, photograph, notify host via dashboard
4. Open windows briefly to air out (per host SOP)

▶ PHASE 2 — DEEP WORK (Middle of Job)

5. Bathrooms first — scrub, sanitize, restock, stage towels
6. Kitchen — wipe all surfaces, clean appliances, reset dishes, restock supplies
7. Living areas — dust, wipe, vacuum/mop, arrange furniture & décor
8. Bedrooms — rotate laundry, make beds, dust, vacuum/mop
9. Outdoor spaces — sweep, wipe furniture, check grill, reset staging

▶ PHASE 3 — FINISH & STAGE (Final 15 Min)

10. Restock all supplies per property SOP restocking list
11. Final staging — match host's welcome photos in dashboard
12. Nose check in every room — no odors, ever
13. Final walkthrough — room by room, top to bottom
14. Take all AFTER photos — every room, every space
15. Upload after photos to dashboard
16. Mark every SOP task complete in dashboard
17. Clock out — mark job as COMPLETE

★ Do not mark a task complete until it is done. The dashboard is a trust tool — the host is watching.

■ THE PROPER DASHBOARD — HOW TO USE IT ON EVERY JOB

The dashboard is your accountability partner and the host's peace of mind. Use it in real time — not at the end.

WHEN	ACTION	WHY IT MATTERS
When you arrive	Clock in + upload before photos	Starts your job record; host sees you're on-site
Damage spotted	Photo + flag immediately	Host can respond before next guest arrives
Each SOP task done	Check it off — right now	Host watches tasks complete in real time
Laundry rotated	Note in dashboard	Keeps job timeline accurate
Restocking done	Check off restock items	Ensures supplies are confirmed complete
Each room finished	Upload mid-job photos	Documents progress; builds host confidence
Final walkthrough done	Upload after photos	Proof of completion; protects you and the company
Job complete	Mark COMPLETE + clock out	Sends host a guest-ready notification

★ **The host can see your dashboard in real time. Every check-off is a message that says: "We've got you."**

⚠ DASHBOARD MISTAKES — NEVER DO THESE

- ✗ Never pre-check a task you haven't done yet
- ✗ Never upload photos from a different job or property
- ✗ Never mark the job complete before the final walkthrough is done
- ✗ Never skip the before photos — even if you're in a rush
- ✗ Never leave a flagged damage item without a photo and a note

■ WHEN SOMETHING'S WRONG — REPORT IT RIGHT

Finding a problem isn't the issue. NOT reporting it is.

■ DAMAGE CHECKLIST — FLAG ANY OF THESE

Photo + dashboard flag required for every item:

- ☐ Broken or cracked furniture
- ☐ Stained, torn, or damaged linens/towels
- ☐ Broken dishes, glassware, or cookware
- ☐ Damaged appliances
- ☐ Wall scuffs, holes, or damage
- ☐ Floor damage — scratches, stains, broken tile
- ☐ Broken fixtures — faucets, towel bars, outlets
- ☐ Missing inventory items
- ☐ Evidence of unauthorized pets
- ☐ Evidence of smoking
- ☐ Excessive mess beyond standard scope
- ☐ Plumbing sounds, leaks, or water damage
- ☐ Pest evidence
- ☐ Exterior damage

■ HOW TO REPORT — 3 STEPS

1 STOP — Don't try to fix it yourself unless it's within your scope

2 PHOTO — Take a clear, close-up photo immediately

3 FLAG — Report in dashboard: what you found and exactly where

★ **Reporting early gives the host a chance to fix it before the guest arrives. That's the job.**

▲ CALL SUPERVISOR IMMEDIATELY IF:

- ! Any safety hazard on the property
- ! Evidence of break-in or criminal activity
- ! Damage appears to be intentional
- ! A guest or unauthorized person is on-site
- ! You are injured or feel unsafe for any reason
- ! Turnover cannot be completed before check-in

Do not wait. Do not text. Call your supervisor directly.

■ IF A CLIENT OR GUEST CONTACTS YOU ON-SITE

You are the face of Proper Home Prep on every job. How you communicate reflects our brand.

◆ THE PROPER GREETING (IF HOST IS PRESENT ON ARRIVAL):

" Hi, I'm [Name] with Proper Home Prep — I'm here for the turnover. We'll take great care of the property and have it guest-ready well before check-in. "

✓ DO SAY:

- ✓ "Absolutely" or "Of course" — never "no problem"
- ✓ "We'll take care of that" — never "I don't know"
- ✓ "Let me check the SOP / check with my supervisor"
- ✓ "I'll note that in the dashboard and make sure the team sees it"

✗ NEVER SAY ON-SITE:

- ✗ Pricing, quotes, or scope changes — "I'll have the office reach out to you"
- ✗ Complaints about previous guests, other jobs, or the company
- ✗ Personal opinions about the property or décor
- ✗ Anything negative about a previous tech or team member

▲ IF A HOST SEEMS UNHAPPY:

1. Stay calm — do not get defensive
2. Listen fully before responding
3. Say: "I want to make sure this is right. Let me contact my supervisor so we can address this properly."
4. Contact supervisor immediately via phone or dashboard
5. Do not make promises or offer refunds — that is not your call

▲ UNAUTHORIZED PERSON ON-SITE:

1. Do not let them in
2. Contact supervisor immediately
3. Note the incident in the dashboard

★ **When in doubt — say less, call your supervisor, and do the right thing.**

■ SAFETY FIRST — ALWAYS

◆ PPE BY JOB TYPE

Job Type	Required PPE
STR Turnover / Cleaning	Gloves (always); mask if using chemical sprays
Junk Removal / Cleanout	Gloves; steel-toe boots; back support belt for heavy lifting
Light Repairs	Safety glasses; appropriate footwear
Exterior / Pressure Wash	Non-slip shoes; sun protection; eye protection

⚠ CHEMICAL SAFETY — NO EXCEPTIONS

- ☐ Read product label before using any chemical
- ☐ **NEVER mix bleach with ammonia or any other cleaner — toxic gas hazard**
- ☐ Always ventilate when using strong cleaning products
- ☐ Store all chemicals upright in original containers
- ☐ Dispose per product instructions — never pour down drain unless labeled safe
- ☐ MSDS/SDS sheets available from supervisor on request

▲ IF YOU ARE INJURED:

1. Stop work immediately
2. If emergency — call 911
3. Call supervisor immediately
4. Document the incident in writing (time, location, what happened)
5. Do not continue working after a significant injury — your safety is the priority

◆ LIFTING SAFETY

- ☐ Never lift more than 50 lbs alone — ask for help or use equipment
- ☐ Bend at the knees — never the back
- ☐ Carry loads close to your body
- ☐ Use a back support belt for heavy or repeated lifting

◆ SLIP, TRIP & FALL PREVENTION

- ☐ Wet floor signs up when mopping — always
- ☐ Wipe up spills immediately
- ☐ Watch for uneven surfaces, stairs, and wet decks
- ☐ Keep cords and equipment out of walking paths

☎ EMERGENCY CONTACTS

Emergency: 911

Supervisor: _____

Supervisor Phone: _____

Poison Control: 1-800-222-1222

Non-Emergency Police: _____

★ **Your safety comes first. Always. No job is worth an injury.**

◆ THE PROPER STANDARD ◆

" You're not just cleaning a property.
" You're preparing a guest's experience.
" You're protecting a host's reputation.
" You're representing Proper Home Prep.

Do the job right.
Every room. Every task. Every time.

" Where Every Detail Matters. "

If you have questions about any protocol in this guide, contact your supervisor before proceeding.
When in doubt — do it right.
