THE PROCESS

How It Works

Getting started is simple. We do the heavy lifting.

FLOW From first contact to first visit

1

Submit a Quote Request

Fill out our 3-step form. Tell us about your property, the services you need, and your schedule. Takes about 3 minutes.

2

Brittany Calls You

We review your request and reach out within 24 hours to go over details, pricing, and answer any questions.

3

Agreement & Onboarding

Sign your service agreement and complete our host intake form. We build your custom property SOP — the blueprint for every visit.

4

We Show Up & Handle It

Your tech arrives, works the SOP, and sends you completion photos. You get a spotless property — no supervision required.

WHY CHOOSE US

The Proper Home Prep Difference

We're not a cleaning app. We're your property partner.

PHP What sets us apart

Custom SOP for Every Property

We build a written standard operating procedure specific to your property. Every tech follows it exactly — every single time.

Completion Photos Every Visit

You get photos after every service. You'll know what was done, what was found, and that your property is guest-ready — without being there.

Real-Time Damage Reporting

Any damage found is photographed, documented, and reported to you immediately. Never find out about a problem days after the fact.

Tight Turnaround Windows

We work within your checkout-to-check-in window. Typically 2–4 hours. Rush service available for last-minute gaps.

Locally Owned, Personally Run

Brittany runs every client relationship personally. You're not dealing with a call center — you have a real Nashville contact who knows your property.

Secure Access Management

Access codes and entry info are stored securely and shared only with the assigned tech on job day. Your property's security is taken seriously.
