01 Arrival Protocol — Every Job, Every Time

> 📲 The dashboard is your system of record for every job — clock in, photos, task check-offs, and flags all happen there. Text or call Brittany only as a fallback: the dashboard is down, or you have a genuine emergency (see Emergency Contacts above).

1 Confirm the Job
Check your assignment in the dashboard. Verify property address, checkout time, and check-in window before leaving home.

2 Clock In on the Dashboard
Mark the job STARTED the moment you arrive. Dashboard down? Text Brittany "Arrived" with the property name and time instead.

3 Initial Walkthrough — Damage Check First
Walk every room BEFORE cleaning. Note and photograph anything damaged, missing, or unusual. Do not clean around damage — document it first.

4 Report Any Damage Immediately
Flag it in the dashboard — photo + description, choose severity. Do not wait until the end. Dashboard down or it's serious? Call or text Brittany immediately instead.

5 Work the SOP — Room by Room
Follow the property SOP exactly. If no SOP is on file, follow the standard turnover checklist below.

6 Final Walkthrough + Photo Check
Walk every room again before leaving. Take 3–5 completion photos: beds made, kitchen clear, bathrooms staged, front door locked.

7 Submit Sign-Off & Clock Out on the Dashboard
Mark every task complete, then submit sign-off — this sends the host their guest-ready notification. Dashboard down? Text Brittany "Complete" with a timestamp instead.

05 Damage Reporting — When & How

Report ALL damage immediately — do not clean around it, do not wait until after the job.

STEP 1: FLAG IN THE DASHBOARD

Photo + description, right on the job. Choose severity: Routine Note, Needs Host Attention, or Urgent — Stop and Call. Do this the moment you find it.

STEP 2: PHOTO LOG

Take 3 photos minimum: wide (room context), mid (damage area), close-up (detail). All attach to the flag automatically.

FALLBACK: CALL OR TEXT BRITTANY

Dashboard down, or the damage is serious enough to select "Urgent"? Call or text Brittany immediately — don't wait on the dashboard alone.

SITUATION	WHAT TO DO
Broken item (lamp, fixture, furniture)	Photograph, bag any shards safely, do not discard. Flag it in the dashboard.
Stain (carpet, upholstery, mattress)	Do not attempt to clean without instructions. Photograph and flag it first.
